

LYSAGHT

Custom Orb Accent™
A new look for an old favourite

Introducing LYSAGHT Custom Orb Accent™

Traditional corrugated steel has been part of the Australian architectural landscape for over 150 years. Lysaght supplied Australia's first corrugated steel sheets in 1880 and since then designers, builders, architects and home owners have come to appreciate the benefits, great looks and design possibilities of LYSAGHT CUSTOM ORB® roofing.

Lysaght has grown to become an integral, trusted partner to the Australian building and construction industry. Fostering close relationships with customers and taking the time to understand their needs, we have led the market with the introduction of innovative new products and services that have revolutionised the industry.

BlueScope Lysaght is again giving designers even more choice with the introduction of two new corrugated styles. Introducing 100% Australian made LYSAGHT CUSTOM ORB ACCENT™

Set to become the new design benchmark in Australian corrugated roofing, the CUSTOM ORB ACCENT™ range provides architects, designers and builders with a choice of two deeper profiles to create a bolder corrugated roof line while maintaining the unique style of the iconic Australian steel roof.

The benefits of CUSTOM ORB ACCENT™ go beyond aesthetics. The deeper ribbed profiles mean that CUSTOM ORB ACCENT™ is stronger than traditional corrugated steel giving it greater spanning capacity and resistance to damage. The wider, more rounded ribs also give CUSTOM ORB ACCENT™ greater water carrying capacity meaning it can be used at lower pitches.

As with all BlueScope Lysaght products, CUSTOM ORB ACCENT™ is backed 100% by the technical and warranty support of BlueScope Lysaght and Australia's leading steel manufacturer, BlueScope Steel.

LYSAGHT

Custom Orb Accent™ 21

When a building design calls for the look of traditional corrugated steel CUSTOM ORB ACCENT™ 21 is the perfect choice. With a slightly deeper profile CUSTOM ORB ACCENT™ 21 roofing delivers real benefits to the architect, builder and owner alike, while maintaining the look of a traditional corrugated steel roof.

- The high tensile, corrugated ribs of CUSTOM ORB ACCENT™ 21 are 30% deeper making it stronger than traditional CUSTOM ORB® roofing
- The deeper, stronger corrugations give a tougher roof meaning less damage from foot traffic both during installation and over the life of the building
- With superior water carrying capacity CUSTOM ORB ACCENT™ 21 allows for a lower roof pitch design, down to 3 degrees
- CUSTOM ORB ACCENT™ 21 still delivers a coverage area of 762 mm meaning it is the perfect choice for re-roofs and retrofitting to existing building designs
- Available in 100% Australian made ZINCALUME® steel and four popular COLORBOND® steel colours

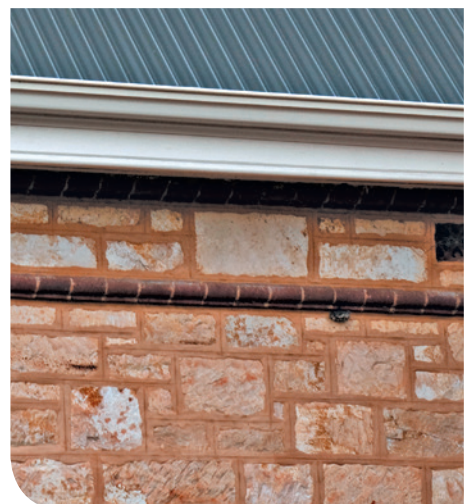

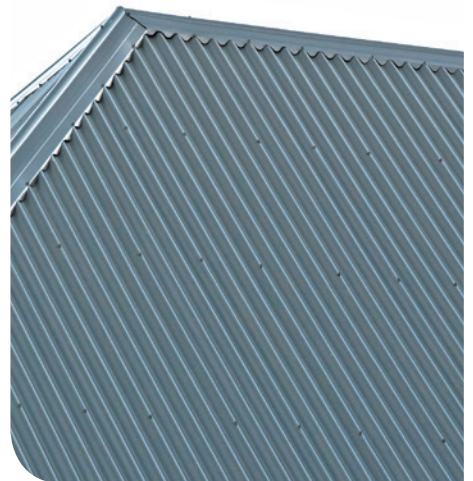

LYSAGHT

Custom Orb Accent™ 35

With 60% deeper corrugations CUSTOM ORB ACCENT™ 35 delivers real impact with a familiar style. With ribs 50% wider than traditional corrugated steel CUSTOM ORB ACCENT™ 35 gives a strong, bold profile to any roof design.

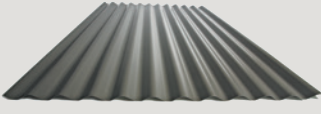

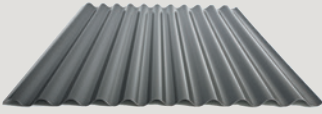

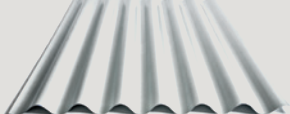

- The deeper, more-rounded profile of CUSTOM ORB ACCENT™ 35 delivers a bold visual statement on both residential projects and large scale commercial and industrial projects
- Combined with the 0.48mm base metal thickness the wider, deeper ribs make CUSTOM ORB ACCENT™ 35 stronger than traditional corrugated roofing
- With exceptional water carrying capacity (significantly more than normal corrugated roofing) CUSTOM ORB ACCENT™ 35 is suitable for roof pitches down to 2 degrees
- The strong, high tensile ribs of CUSTOM ORB ACCENT™ 35 easily cope with normal foot traffic during installation and maintenance

The profile of CUSTOM ORB ACCENT™ 35 is similar to that of "deep 6" corrugated asbestos roofing, making CUSTOM ORB ACCENT™ 35 the ideal replacement material for roof restorations and refurbishment.

The LYSAGHT Custom Orb® range

The introduction of the new LYSAGHT CUSTOM ORB ACCENT™ range gives designers and builders choice in corrugated roofing profiles. The table below presents the basic technical information for each LYSAGHT® corrugated product. More detailed design, specification, usage and installation guidelines are available at www.lysaght.com

	LYSAGHT CUSTOM ORB®	LYSAGHT CUSTOM ORB ACCENT™ 21	LYSAGHT CUSTOM ORB ACCENT™ 35
			
Usage	Traditional favourite for all roofing and walling applications.	Suitable for commercial, residential, shed and architectural feature applications where a deeper profile may be required for added impact.	Ideal for large scale cladding projects including commercial and industrial applications, large sheds or when architectural flair is demanded.
Thickness	0.42, 0.48	0.40, 0.48	0.48
Sheet coverage	762mm	762mm	724mm
Depth of corrugation	16mm	21mm	35mm
Min roof pitch	5° (1:12)	3° (1:20)	2° (1:30)

Available in QLD, NSW & VIC

Standard Colour Range

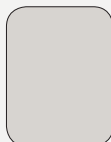

LYSAGHT CUSTOM ORB ACCENT™

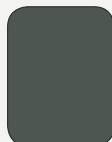

Zincalume®
(unpainted)
